### YEAR 1 PROJECTS

#### *Sensors on City Vehicles*

Equip City vehicles with sensors to identify and collect real-time data on the City's infrastructure and areas of need.

#### *Data Visualization Tool*

Build a visual tool that provides City staff insight into the impacts and efficiencies of the City's housing policies, such as the Neighborhood Empowerment Zones.

#### *Ideas Portal*

Establish a digital process for City of San Antonio employees to submit innovative ideas, crowdsource favorites, select pilots, and track progress/performance.

#### *Autonomous Vehicles*

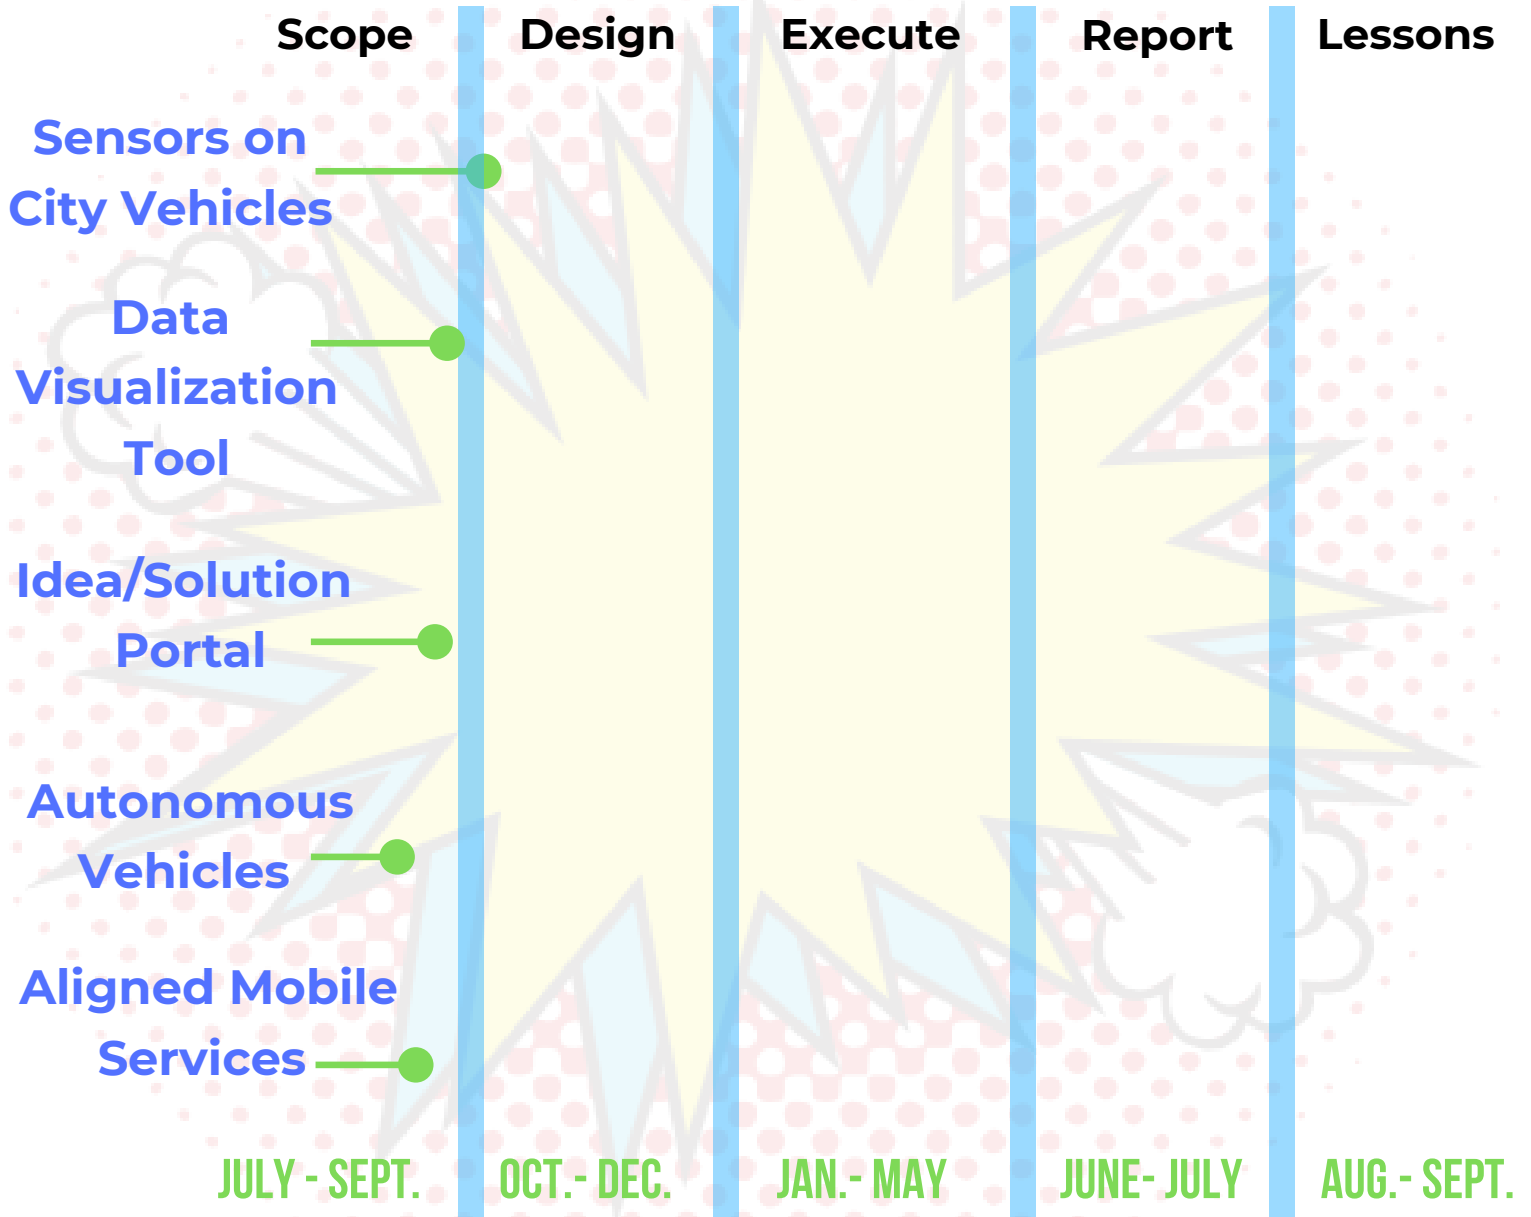

Utilize applied research to better understand the liability, perceptions, and opportunities for autonomous vehicles at the Brooks Innovation Zone.

#### *Aligned Mobile Services*

Identify common areas of town of which multiple departments need to connect and align efforts in a "go-to-them" mobile model.
